

STRONGER TOGETHER.

MISSION

To enhance the lives of our patients and partners with care and compassion.

VISION

Deliver world-class patient care to the communities we serve.

VALUES

Put **PEOPLE FIRST**

But what does that really mean? It means leadership fostering an environment that fulfills our people's needs. We trust implicitly the value of what makes you you.

Lead with **INTEGRITY**

Supplying healthcare and related services to the nation requires a level of integrity that is unwavering. We are committed to delivering care in ways that lead to the best outcomes.

Treat with **COMPASSION**

Whether it's a patient in a treatment room or a coworker alongside us, we treat all people with compassion and always assume positive intentions. It's what defines us and is at the core of every interaction.

Build lasting **RELATIONSHIPS**

We approach building trust in our communities "one conversation at a time." We value the trust put in us and return the generosity whether that is a new group joining our Alliance or a patient placing their healthcare in our hands.
