TMJ FUNCTIONAL TOOL

When your TMJ hurts, it may be difficult to do some of the things you normally do.

This list contains sentences that people have used to describe themselves when they have TMJ pain. When you read them, you may find that some stand out because they describe you today. As you read the list, if a sentence does not describe you, then leave the space blank and go on to the next one. **Remember** only check the sentence if you are sure that it describes you today.

9. I have tooth pain with no apparent cause such as decay. 10. My jaw locks in an open or closed position. 11. My jaw hurts when I get up in the morning 12.
